

Americký patent

Digital generator of phase shift modulation

Authors:

Ronešová, A.; Mašek, B.

Project number:

FOR_PAT_01-09

Patent number:

USA No. 7,480,155

Date of patent:

20. 1. 2009

Description:

This invention uses generation of phase modulation in performance electronics controlled by a full-bridge transducer. The system was developed for controlling transducers with resonance loading.

Key words: Control by full bridge transducer, generation of phase modulation
